Curriculum focus of SPG spending 2013/14

We have spent the money as below:

1. Employed 'Evolve' to provide two sports mentors to work three days a week in our school. They provide support to class teachers in PE lessons and after school provision.
2. Step 8 Street Dance After School Club.
3. Cheerleading After School School Club.

Measuring the impact of SPG spending

The following quotes are from our children as to what the new after school clubs have meant to them:

'I was buzzing when I came out'

'I am more fit'

'I have lost weight'

'Now I want to do more sports''

Teachers and TAs have recently re audited where we think we are on The Youth Sports Trust Audit and I am pleased to report that in 3 categories we have moved from emerging to established.

There are the following strands:

4. Do you provide a broad, rich and engaging curriculum?

9. Does your school know how to effectively utilise the new PE and school sport funding?

&. Are you providing a rich, varied and inclusive school sport offer as an extension of the school curriculum?

In the Catholic Cross Country tournament 13 children represented the school in the boy's and girl's races. The leading finish in the Boy's race was 25th while in the Girl's race it was 14th.

In the Swimming Gala we took a team of girls all of who competed very well against 24 other schools. Despite not achieving places in the finals the girls were all pleased to have competed and they represented the school well.

A team of 24 children represented the school in the Athletics Meeting at Alexander Stadium. With over 40 schools competition was fierce but again all of the children enjoyed the experience of competing in a high class venue. Of particular note was Marie's (Y5) second place in the Year 5 sprint.
